Project 2: Security Awareness & Governance (Company M)

Project: Enterprise Cybersecurity Resilience & Phishing Simulation

Target: Company M (Global Payments/Technology)

Preparer: Henrietta Onaga, MBA, FCCA, CISA (Exam Passed)

Task 1: Phishing Simulation Design

- **Simulation Vector:** A "Mandatory Password Reset" email appearing to come from the internal IT Helpdesk.
- **Psychological Trigger:** Urgency (Account will be locked in 2 hours).
- **Targeting:** 500 employees across Finance and Operations.

Task 2: Analysis & Executive Summary

- **Click Rate:** 18% (Benchmark is <10%).
- **Credential Harvest Rate:** 5% of users entered dummy data into the landing page.
- **Recommendations:** 1. Implement a "Report Phish" button in Outlook for one-click reporting. 2. Enroll "repeat clickers" in a mandatory 15-minute interactive security module.
