WP ID: 101
Preparer: Henrietta Onaga, CISA (Exam Passed)
Reviewer: [System Simulation]
Source Data: ERP System Configuration Dump – Production Environment
Objective: To verify the operating effectiveness of automated purchase thresholds

Process	Risk	Control Activity	Test of Design (ToD)	Result
Procure-to-Pay	Unauthorized high-value purchases (> $5k)	System-enforced multi-level approval workflow.	Inspect ERP workflow configuration for "Purchase Approval" thresholds.	**Pass**
General Ledger	Fraudulent back-dating of financial entries.	Period 'Lock Dates' restricted to Controller/Admin roles.	Verify 'Lock Date' settings in Accounting Configuration module.	**Pass**
